WORK EXPERIENCE

Product Designer

— 2020 - till date

Tata Consultancy Services being one of leading IT, consulting and business solutions organizations , got an opportunity to work on multiple projects in different domains like Banking, Logistics and TTH (Travel, Transportation and Hospitality). As a Product designer(UI/UX/Visual), my core responsibilities are to contribute to the Design System by creating UI components, patterns, templates and documentations. My major role is to understand the product requirement from business analysts and clients in order to create user flows, wireframes, interactive prototypes, usability tests and also to work closely with the development team to help in assets and design review after the development.

EDUCATION

MASTER OF ENGINEERING

— 2014 - 2016

Computer Science Engineering - Anna University

BACHELOR OF TECHNOLOGY

— 2012 - 2014

Information Technology - Anna University

Graphic Designer

— 2017 - 2019

My journey began with 2adpro, a unique global design and technology services company that develops and delivers creative content and technology solutions to the world's leading brands and media companies. My major responsibilities had been creating visually rich graphic designs for advertisements, logos, posters, brochures, websites, social media graphics, etc., which in a way communicates messages effectively and aesthetically. Some of my other key responsibilities were collaborating with copywriters, photographers, and other professionals to create well-rounded designs, ensuring the design elements aligned with the company's brand guidelines and identity and managing multiple projects simultaneously adhering to deadlines.
